WARNING: READ BEFORE USING YOUR PLAYSTATION® GAME CONSOLE.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNOFFICIAL PRODUCT:

The use of unofficial products and peripherals may damage your PlayStation game console and invalidate your console warranty.

HANDLING YOUR PLAYSTATION DISC:

- This compact disc is intended for use only with the PlayStation game console.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

STARTING THE GAME

- Set up your PlayStation® game console according to the instructions in its Instruction Manual. Make sure the power is OFF before inserting or removing a disc. It is advised that you do not insert or remove peripherals or memory cards once the power is turned on.
- Insert the Sports Superbike 2 disc and close the Disc Cover.
- Insert game controllers and turn on the PlayStation game console.

Make sure there are enough free blocks on your memory card before commencing play. This game uses 2 blocks to create a saved game.

DUALSHOCK® analog controller

NOTE: Compatible only in Digital and Analog mode

NOTE: You may have a controller that looks like this, if so please follow the digital instructions outlined above.

directional buttons

NOTE: Sports Superbike 2 can be played using the left/right analog sticks of the DUALSHOCK® analog controller. To use the left/right stick please ensure that you are in Analog mode (LED: Red). The default controls are for the left analog stick to be used for steering, and the right analog stick for accelerating and decelerating. However, these controls can be reconfigured using the 'Controller Settings' menu within Options. We recommend that you make use of the DUALSHOCK® analog controller to control the steering and speed of your bike. This is a far more enjoyable and realistic experience.

MAIN MENU

The Main menu screen is the starting line for the Sports Superbike 2 experience. From this screen you can change game options and decide on which tracks you wish to race. To select one of the Main menu options highlight your selection with the directional buttons and press the  button to confirm. Each of the options available at the Main menu will be described in detail throughout this software manual. These main menu options are as follows:

- 1) Single Race – Compete in a single race against computer opponents on any of the game's tracks.
- 2) Championship – Race one of a variety of championships. Completion of all championship will unlock a number of extra tracks, depending on the difficulty level of the championship selected.
- 3) 2 Player Race – Race a Single race, with 2 players competing from a split screen viewpoint.
- 4) 2 Player Championship – 2 players can play a full championship, split-screen.
- 5) Options – Toggle a wide range of game settings.
- 6) Skill Tests – Designed to test your driving ability. Completing skill tests enables you to race championships at higher difficulty settings, enabling you to access extra tracks.

1) SINGLE RACE

Firstly you will need to select the name of your rider. To select letters use the directional buttons to highlight the letter you require and press the **X** button. You can erase letters by pressing the **□** button. When you have finished inputting your name, highlight 'END' and press the **X** button. You will then proceed to the 'Difficulty' screen.

Difficulty

This screen allows you to select the difficulty of your race. You can choose between 'Unlicensed', 'License A' and 'License B' difficulty settings:

Novice – In 'Novice' mode, steering assist is on, braking assist is on and damage is off.

Amateur – In 'Amateur' mode, steering assist is on, braking assist is off and damage is off.

Professional – In 'Professional' mode, steering assist is off, braking assist is off and damage is on.

NOTE: 'License A' and 'License B' modes are initially unavailable. To enable racing in these modes, you must complete the appropriate 'Skill Tests'.

Once you have selected your difficulty setting you will proceed to the 'Choose Laps' screen.

Choose Laps

This screen lets you choose the length of your race. You are able to select between 3, 5 or 10 laps, or a full race of 100 kilometres. Once you have made your selection you will proceed to the 'Choose Track' screen.

Choose Track

From here, you select the track you wish to race on. Sports Superbike 2 features a total of 15 tracks, across many different countries. Many of these tracks are only available when

all championships are completed at each of the game's difficulty settings. You will then proceed to the Race screen. This screen displays an icon showing the weather conditions of your race. Wet weather (represented by a raindrop) is not available in 'Novice' mode.

Race

Choose either 'Start Race' to proceed to the Qualifying session for your chosen track or, choose 'Setup Player 1 Bike' to change your bike's setup before a race.

Start Race – Advance to the qualifying stage of the race.

Setup Player 1 Bike – Advance to the 'Workshop' screen to customise the settings of your bike.

Workshop

This option allows you to alter the settings of your bike for maximum performance. Highlight and change selections using the directional buttons. Your bike setup for every track can be saved to the memory card when you save the game, so you can have different setups stored depending on whether a particular track is slow and windy or fast with long straights.

To reach other setup options in this menu, highlight the Menu heading (displayed in capital letters) and press the directional buttons to move between menus. Press the **X** button or the **△** button to confirm any changes you make and return to the 'Race' screen.

GEARBOX – Choose between 'Automatic' or 'Manual' gears.

GEAR RATIOS – Choose one of 21 different sprocket sets to vary the performance of your bike through the gears. You can select between very tight gear ratios to give your bike high acceleration but a lower top speed, or you can choose more open gear ratios to give you lower acceleration, but with a higher top speed. For maximum performance, you will need to experiment with these ratios to find the ideal settings for each race.

NOTE: Use tracks to test the effectiveness of your gear ratios. Your bike should ideally be able to reach top speed on the longest straight of any given track, for gear ratios to be truly effective.

TYRES - Select between 'Hard' and 'Soft' tyres. Soft tyres give more grip but wear out quickly, making them ideal for qualifying. 'Hard' tyres grip the road less efficiently, but wear far more slowly, making these more suitable for full races.

Starting a Race

Once you have changed your setup, press the  button to return to the 'Race' screen. Select 'Start Race' to proceed to your chosen track. You will then be taken to Sports Superbike 2 Qualifying session.

Qualifying is vital (especially in License A and License B modes) if you wish to do well in a race. Failure to qualify will result in starting a race at the back of the grid, making it hard to compete effectively. Don't forget that your first "out lap" does not count as a qualifying lap, just like a real race.

If you wish to skip Qualifying, press the  button to access the Pause menu and then select 'Abandon Session'. You will then be able to access the full race.

Pausing the Game

Once in a race you may access the pause menu at any time by pressing the  button. This menu features the following options, which can be selected by pressing the  button:

Continue – Resume the race.

Restart – Restart the race back at the grid.

Abandon Race – Cancel your race and return to the 'Choose Track' menu. 'Abandon Session' replaces this option during qualifying.

Controller 1 Vibration: Toggle this between ON and OFF using the directional buttons. This option is only compatible when playing with a DUALSHOCK® analog controller. In '2 Player Race' and '2 Player Championship' modes, player 2 is also able to select this option.

2) CHAMPIONSHIP

Select 'Championship' at the Main menu. Next, proceed through the 'P1 Enter Name', 'Difficulty' and 'Choose Laps' menus as instructed in the '1. SINGLE RACE' section of this manual. You will then arrive at the 'Choose Champ' menu, where you must select the championship you wish to complete.

Initially, you may only access the Tundra Trophy. After completing this in Unlicensed mode, you will then be able to access and complete the other championships in the following order: Mexican Rally, Countryside Challenge. Once you have completed these at the 'Unlicensed' difficulty setting, you will be able to access more tracks in the other game modes. Other tracks are accessible by competing all championships in License A and License B modes. Gain access to these by competing the License A and License B Skill Tests.

3) 2 PLAYER RACE

This mode of play allows 2 players to compete against each other simultaneously. This mode allows players to race split screen. Player 1 controls the bike in the upper half of the screen. Player 2 controls the bike in the lower half. There must be an extra controller inserted in controller port 2 of the PlayStation console before you can access a 2 Player Race.

There are no computer-controlled riders in '2 Player Race' mode. To access this mode simply highlight '2 Player Race' at the Main menu. Proceed through the menus as described in the 'Single Race' section of this manual. The only exceptions are that Player 2 has to enter their name at the screen marked 'P2 Enter Name' using the controller port 2. The same applies at the 'Race' menu, when Player 2 can edit the setup of their bike prior to a race in the same way as Player 1. '2 Player Race' mode does not contain a qualifying session.

4) 2 PLAYER CHAMPIONSHIP

This mode allows two players to compete in a championship against each other, with no computer-controlled riders taking part. This mode, like '2 Player Race' mode is viewed via a horizontally split screen, with Player 1 controlling the bike in the top half of the screen. 2 Player Championship is exactly the same as the Championship mode, but Player 1 and Player 2 race against each other instead! Initially - as in a one player Championship - only the Tundra Trophy is available to race, with the other Championships becoming accessible only after you have completed the championships before them.

5) OPTIONS

At the Main menu highlight 'Options' and press the  button to access the options menu. The following options can be selected by highlighting then using the directional buttons and pressing the  button to confirm your selection:

Controller Settings

This option allows you to configure the controls of the game to suit your own preferences. To change a button's function, simply highlight an action (accelerate, brake, turn left/right etc) and press the button that you wish to use to perform this function. To go back to default settings simply highlight 'DEFAULT SETUP' and press the  button. Note that if you have a DUALSHOCK® analog controller it is possible to configure the left/right analog sticks to turn your bike left/right and to accelerate/brake with greater accuracy. Press  to exit this screen.

Sound Settings

Here you can alter the Effects Volume and the Music Volume of the game. These can be set anywhere between 0% and 100% using the directional buttons.

Screen Centring

This screen allows you to centre the game display using the directional buttons. Press the  button when you are happy that the screen is centred.

Secret Codes

This screen allows you to enter secret codes to access hidden options. Try entering lots of different codes and see what the results are!

Load Game

You are able to save your progress during the game by saving the game data to a memory card. One game can be saved per memory card. Make sure there are enough free blocks on your memory card before commencing play. The game uses 2 blocks to create a saved game.

To load a saved game:

- Insert a memory card containing the saved game into MEMORY CARD Slot 1 or MEMORY CARD slot 2 before turning on your PlayStation console.
- Start the game and at the 'Load Game' screen choose the MEMORY CARD slot you wish to load from.
- The saved data will then be loaded from the memory card and you are able to continue your game from the point where you last saved your data.

Save Game

To save your game data:

- Insert the memory card you want to save the game data to into MEMORY CARD slot 1 or MEMORY CARD slot 2 before turning on your PlayStation console.
- When you wish to save your game, access the 'Save Game' menu and select a memory card to save to (either in MEMORY CARD slot 1 or MEMORY CARD slot 2).
- Your game will then be saved onto memory card. You can overwrite your saved data at any time in the 'Save Game' menu. You will be asked to confirm if you decide to overwrite your saved game.

NOTE: Never insert or remove a memory card when loading or saving files.

6) SKILL TESTS

Sports Superbike 2 contains Skill tests, which are accessed via the Main menu. The skill tests are for either License A or License B modes. Each mode requires you to complete 3 skill tests against the clock. You must race your bike between two points on the track within a set time limit to pass the skill tests. If you fail you will have to try again. Once completed, the Skill Tests allow you to race 'Single Race', 'Championship', '2 Player Race' and '2 Player Championship' modes at License A and License B difficulty levels. To experience the game at its best you should compete at these difficulties, so the Skill Tests are quite important. By completing 'Championship' mode at each difficulty level you are able to access extra tracks that are otherwise unavailable. Good Luck!

LIMITED WARRANTY

ZeniMax Media Inc. ("ZeniMax") warrants for a period of ninety (90) days following the original purchase of this Disc ("Warranty Period") that the Disc media is, and under normal use shall be, free from substantial errors or defects that will materially interfere with the operation of the Disc as described in the Documentation. This limited warranty applies to the initial purchaser only ("You"), and does not apply if the Disc is used for other than for private, non-commercial purposes.

EXCEPT AS STATED ABOVE, ZENIMAX MAKES NO OTHER WARRANTY, REPRESENTATION, OR CONDITION, EXPRESS OR IMPLIED, STATUTORY OR OTHERWISE. ANY AND ALL OTHER EXPRESS OR IMPLIED WARRANTIES, REPRESENTATIONS, OR CONDITIONS, STATUTORY OR OTHERWISE, ARE EXPRESSLY AND SPECIFICALLY DISCLAIMED, INCLUDING ANY WARRANTY OR MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NON-INFRINGEMENT.

Some jurisdictions do not allow limitations on how long an implied or express warranty or condition lasts, so the above limitation may not apply to You. This limited warranty gives You specific legal rights, and You may also have other rights which vary from jurisdiction to jurisdiction.

If You believe You have found an error or defect in the Disc that would constitute a breach of this limited warranty during the Warranty Period, and You are in the United States, please call (410) 568 3685, 8:00 a.m. to 12:00 midnight EST Monday through Friday, and 8:00 a.m. to 8:00 p.m. EST Saturdays and Sundays, excluding holidays. If You are outside the United States, send your original Disc to Mud Duck Productions c/o ZeniMax Media Inc., 1370 Piccard Drive, Suite 120, Rockville, Maryland 20850 USA, together with a dated proof of purchase, Your product number, a brief description of such error or defect, and Your return address.

If You have a problem resulting from such a manufacturing defect in the Disc, ZeniMax's entire liability and Your exclusive remedy for breach of this limited warranty shall be the replacement of the Disc, within a reasonable period of time and without charge, with a corrected version of the Disc. Any replacement Disc shall be warranted for the remainder of the original Warranty Period or thirty (30) days, whichever is longer. This limited warranty shall not be applicable and shall be void if the defect in the Disc is found to be the result of abuse, unreasonable use, mistreatment or neglect.

WARRANTY CARD AND WARRANTY PROTECTION

To be eligible for warranty protection hereunder, You must fill out and mail in the Warranty Registration Card included in the Package within thirty (30) days of purchase. Failure to send in Your Warranty Registration Card within thirty (30) days of purchase shall result in the loss of Your warranty protection. Warranty protection is available only to You, the original purchaser. In the event of any questions in this regard, ZeniMax reserves the exclusive right to determine warranty eligibility and appropriate redress, if any.

LIMITATION OF LIABILITY

IN NO EVENT SHALL ZENIMAX BE LIABLE FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, PUNITIVE, EXEMPLARY OR OTHER INDIRECT DAMAGES, EVEN IF ZENIMAX IS ADVISED OF OR AWARE OF THE POSSIBILITY OF SUCH DAMAGES. IN NO EVENT SHALL THE ENTIRE LIABILITY OF ZENIMAX ARISING FROM OR IN ANY WAY RELATED TO THE PACKAGE, THE DISC, OR ANY PART THEREOF, OR THIS AGREEMENT, EXCEED IN THE AGGREGATE THE PURCHASE PRICE OF THE PACKAGE.

Some jurisdictions do not allow the exclusion or limitation of relief, special, incidental, consequential, indirect or exemplary damages, or the limitation of liability to specified amounts, so the above limitations or exclusions may not apply to You.

For general technical support, please call 410-568-3685, 8:00 am to 12:00 midnight EST Monday through Friday, and 8:00 am to 8:00 pm EST Saturdays and Sundays, excluding holidays.
